Schimmel is one of the very few piano manufacturers in which the art and craft of traditional piano manufacturing is still being carried on by direct descendents of the company's founder. All Schimmel pianos are hand-crafted in Germany. The Schimmel piano stands for quality and enjoys an excellent reputation worldwide amongst the very best of artists:

"The overall impression is optimal!"

— *Mario Patuzzi, pianist*

"...Schimmel offers the artist all possibilities to develop the sound imagination."

— *Prof. Pavel Gililov, Köln/Salzburg*

The piano will also be active on eBay August 28 through September 26th. The final bids will take place during the "Auction Party." This is a unique opportunity!
